

Powder Coating Capabilities

Coating	Epoxy Polyurethanes Polyester Hybrids
Substrate	Aluminum Brass Copper Stainless Steel Mild Steel Galvanized Steel Aluminized Steel
Pre-Coating Preparation	7 Stage Pretreatment Systems <ul style="list-style-type: none"> • Clean - Alkaline • Rinse • Clean-Alkaline • Rinse • Iron Phosphate • Rinse • Rust Inhibitor/Non Chrome Sealer 3 Stage Pretreatment Systems <ul style="list-style-type: none"> • Clean - Iron Phosphate • Rinse • Rust Inhibitor/Non Chrome Sealer
Application Process	Manual Spray
Part Length	Up to 240 in.
Part Width	Up to 60 in.
Part Height	Up to 87 in.
Part Weight	Up to 500 lb.
Additional Services	Assembly Design Brazing Machining Hardware Insertion Packaging Welding Vibratory Deburring
Production Volume	10 - 100 pcs Prototype Low Volume Small Run
Typical Lead Time	2 Weeks Rush Services Available

Industry Focus	Aerospace Computer Defense Electronics Food Measure Instrumentation Medical Transportation Power Systems Telecommunications Utilities
Industry Standards	AWS - American Welding Society ISO 9001:2008 International Organization for Standardizations
Efficiency	J.I.T Stocking Programs, Kanban
File Formats	AutoCAD (DWG, DWZ) PDF Portable Document Format Pro-E or Pro/Engineer (DRW, PRT, XPR)) SolidWorks (SLDPRT, SLDDRW, SLDDRT) STEP - Standard for the Exchange of Product Model Data
